

## WG-422 BEE-SMART

WG-422 Bee-Smart encapsulates our brand-new Bee-series™ knitting technique and our new generation of latex in-house developed, the HDML™ coating. The upper part of the gloves is made of an ultra lightweight liner offering both high resistance to torsion and unmatched breathability. Bee-series™ knitting technique creates a unique shape on the palm maximizing the coefficient of friction delivered by the coating itself. The low part of the glove benefits from the Dualiner™ technology and its special support on the back of hand ensuring a snug and secure fit. WG-422 Be-Smart sets a new standard for comfort at work, and become the ultimate glove for general handling work.

### KEY FEATURES

- ✓ Ultra-lightweight liner offering both high resistance to torsion and unmatched breathability
- ✓ Knitting technique creating a unique shape on the palm and maximizing grip
- ✓ High grip performance for safe handling in dry and wet applications
- ✓ Soft coating, enhancing hand movement for superior dexterity and reduced muscular fatigue

### TYPE OF PROTECTION

- General purpose
- Heat resistance

### APPLICATIONS

- Construction-and-public-works
- DIY
- Warehousing-packing-and-logistics
- Assembly

### NORMS AND CERTIFICATIONS

EN 388

EN 407
